VML-80

Magnetic Holder

FEATURES

HANDLE TYPE

VML-140

Work is held and released very smoothly.

- Most suitable to move materails or semi-finished products such
- as black steel plate, flat iron and other materials etc.

HOLDING POWER

It depends on the attractive face, quality and thickness of material and clearance between the material and magnet.

MAXIMUM HOLDING POWER

Workpiece must be thick enough and the surface must be free of dust. magnetic attraction is best and with low carbon-soft steels.
